

INSPIRED BY NATURE

Week-Long Summer Camp for Ages 9–12

Tuition
Just
\$175!

A fun, hands-on adventure with some of the Cape's most fascinating organizations!

Guided by teachers and local experts, students will spend a day with each of the host organizations, exploring the important concept of PROGRESSION and how it influences science, technology, art, music, history—every part of our daily existence. Progression focuses on the continuous growth and development of the natural world around us; the ways in which things past both form and inform those of the present and future. Through special projects and adventures, students will discover how the concept of progression applies to the environmental, artistic, and cultural spheres. Inspired by Nature is a collaboration between the Cape Conservatory, Falmouth Art Center, Falmouth Museums on the Green, Falmouth Public Schools, Northeast Fisheries Science Center, Woods Hole Sea Grant, and Salt Pond Areas Bird Sanctuaries, Inc.

Session Dates: June 25-29, 2018 | 9am—1pm | Tuition \$175

Schedule: Monday, Bourne Farm; Tuesday, Falmouth Art Center; Wednesday, Historical Society; Thursday, The Woods Hole Oceanographic Institute (WHOI) Exhibit Center; Friday, Cape Conservatory
